

## AcXess Cloud Computing Services

Built on the Microsoft Cloud Computing Infrastructure, AcXess has developed V-Works™ an automated Hyper-V management platform.

V-Works is used to manage and control over a thousand separate Virtual Servers in our data centers for Demos, Virtual training labs, Proof of Concept labs and production online service solutions.

AcXess Online Services have provided Microsoft, Citrix & SAP employees and select partners with many thousands of hours of quality high performance online services. V-Works can work for you too.
